LIFT-A-LOFT
An Industry Leader for 50 Years

Custom Units

LIFT-A-LOFT has engineered, designed, and built a variety of Special units over the years to meet the needs of our customers. The previous page shows a small representation of those units.

LIFT-A-LOFT has a 50 year history of designing and building different types of equipment to meet specific purposes and fulfill the requirements of a wide and varied customer base.

Previous page clockwise from the top left:

- Aircraft Boarding Lift designed and built to interface with a private aircraft. Unit was also designed for transportation in a C130 cargo aircraft.
- MP Scissor Lift designed for helicopter access both in the hangar and on the ramp.
- AMV designed with a portable wire feed welder mounted on the unit. This design allows overhead access with an onboard welder for welding in positions not normally accessible.
- Engine trailer designed to raise and position CF100 Turbofan for easy engine mounting to aircraft.
- Tanker inspection and work platform designed around SPW-APX17 lift unit. This unit allows access to the top of tankers with an extendable guardrail to create an enclosed work area

SOME OPTIONAL EQUIPMENT AVAILABLE ON LIFT UNITS

- Flashing or Rotating Warning Lights
- Extenda-deck Front or Side Platform Extensions
- Air Powered Units
- All Motion Alarms
- Air Lines to Platform
- Platform Mounted Work Lights
- Padded Rails
- Aircraft Bumpers
- Custom Paint

SAFETY FEATURES USED ON MOST LIFT UNITS

- Scissor Spreader
- Self Closing, Self Latching Gate
- Guardrails with Midrail and Toe Board
